

Rehabilitation Sciences Institute (RSI)

MSc LETTER OF INTENT

Please answer the following questions in the space provided so that the Admissions Committee may assess the application more thoroughly. The letter of intent will help the Committee gain a better understanding of an applicant's proposed area of research for the M.Sc. program in Rehabilitation Science. *(Please type all answers; hand-written answers are unacceptable).*

(1) How will your graduate studies in RSI facilitate your future career goals?

(2) How has your professional and/or academic background prepared you for graduate studies in RSI?

(3) What is (are) your specific research area(s) of interest? - How would you like to approach them?

(4) How do your research interests align with the fields of study of the RSI?

(5) Which RSI faculty member has agreed to be your thesis supervisor?

Please attach a letter from your supervisor indicating willingness to supervise you and funding that he/she would provide.

Please type your name:
